SCALABLE

COST
EFFECTIVE

IoT ENABLED

LOW
MAINTENANCE

WARSHA - HOUSEHOLD GREYWATER RECYCLING SOLUTION

- **Treatment capacity:** 2,000 - 5,000 litres/day
- **Footprint:** 6 ft x 4 ft x 5 ft
- **Greywater sources:** Shower, laundry, hand wash, kitchen sink
- **Treated water use:** Toilet flushing, gardening, landscaping, floor cleaning
- **Ideal for:** Individual house, villas, small apartments, hostels, public washrooms

- Plug-and-Play design with minimum replumbing
- Fully automated operation
- Zero maintenance

GREEN - MOBILE GREYWATER TREATMENT SYSTEM

- Mobile greywater recycling system for **new building construction projects**
- On-site recycling and reuse of greywater from temporary labour residential camps for construction activities and other uses.
- Capacity: 25,000 litres per day
- Entire treatment plant installed on a **tractor trolley** for easy transportation between sites.
- Reduces reliance on groundwater and water tankers and also reduces sewage generation and handling
